

EYFS Instructions Friday 3rd April 2020

Phonics: Watch one of Mrs. Jervis's phonics sessions on the website.

Complete phase 4 sheet attached. Remember to segment the word and then blend it together to help. Parents there are answer sheets attached if you are not sure what some of the pictures are meant to be (I was confused on some!)

Maths: Watch Numberblocks on iplayer Series 3 episodes Numberblock Rally and Five and friends.

Complete sheets attached. There are 2, complete addition to 10 but if your child is confident in adding to 10, try addition to 20 sheet instead.

Play some board games together that involve using dice. For example snakes and ladders using 2 dice so they can add the 2 numbers together. Help your child to start to recognise that the shape of the dots on the dice represent a number instead of counting every single dot each time.

Read and share books together.

Understanding the World Go out on a nature walk and see how many signs of Spring you can see. Try taking a photograph with help of your adult. Email me the photos that you have taken showing the signs of Spring.

Have a fantastic and safe Easter holiday. Have fun, play outside, be creative. Remember to keep practicing your reading.

Mrs. Edgeworth
