

The French and ICT activities included in the home pack were for the two weeks leading up to the Easter Holidays. If you have completed them, you could do the following DT activity.

Easter in French is **Pâques**

Design and make a French Easter card to send to an elderly friend, neighbour or family member you are unable to see at the moment.

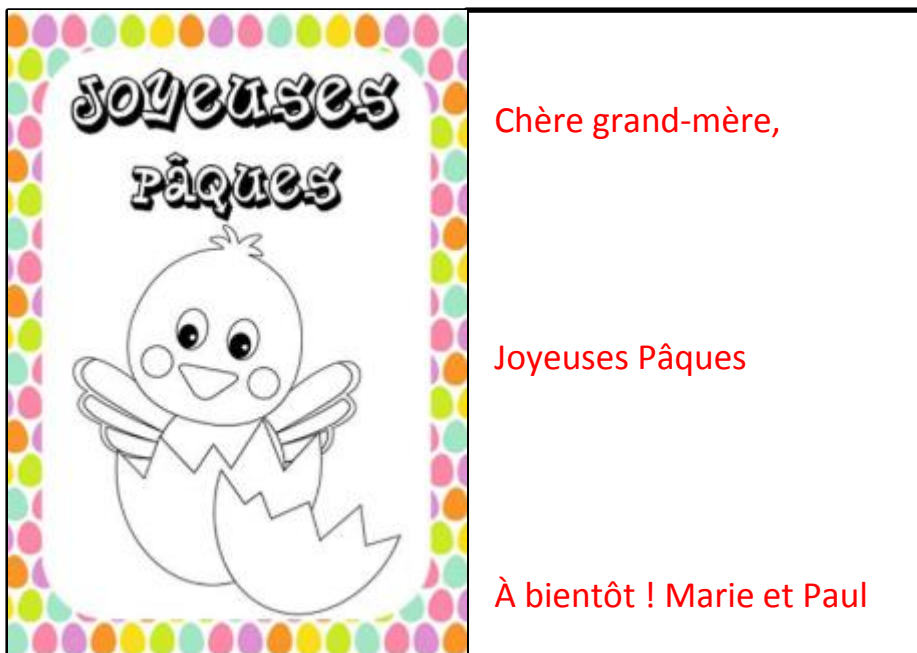

Include **Joyeuses Pâques** – (Happy Easter) on the front of the card

Inside write **Chère** (Dear) before their name

And sign off with **Amitiés** (best wishes) or **À bientôt !** (see you soon)

On the front of the card you could include **un lapin** (a rabbit), **un oeuf** (an egg) or **une meuf** (a chick)

I have put an example below:

Challenge:

Can you make your card a 3D pop up one?

Research some French Easter traditions and write a fact sheet about them.
