The future begins right here.
With you.

How will we tackle climate change? How can we make energy cleaner? What will we eat tomorrow? Science can help us find innovative technological solutions to the challenges we face. Let's spark the insatiable curiosity of bright young minds and, powered by their extraordinary imagination, build an exciting, life-enhancing future. BPES brings real-world science to life with inspiring curriculum-based content for 4 to 19 year olds. Free to access, open to everyone.

Primary resources
Free Science, Design and Technology and Geography resources to inspire pupils aged 4 to 11.

AGES 4-11

Click on **PRIMARY RESOURCES** then **ENTER A STUDENT CODE**
There are 2 student codes
