Good morning. Please search for ks2

and watch the video

Now research trojan horse. You will find a variety of images.  
Choose an image that clearly shows the wooden construction.

Label as much as you can. Show a cross-section cutaway which  
reveals the soldiers inside like this:

You can use this labelled diagram as part of your final TROJAN HORSE INSTRUCTIONS later in the week.

Label where the secret hatch/hatches may be.

Label secret spy holes /air holes for the soldiers inside. Do you think there were ladders/steps inside like the artist's impression above? Or do you think it was simply a very cramped space for the soldiers and that they literally unfurled ropes to climb down from the horse?
