

Monday 22nd June 2020

Good Morning Oaks (from Ms. Pickard)

I hope that you have enjoyed your weekend and that lots of DADS out there were pampered on Father's Day on Sunday. For the parents of pupils and others who were separated from their fathers in lockdown, I hope you managed to send virtual hugs and see each other onscreen.

Here are your activities for today (you can do them in any order). ☑ Joe Wicks PE (or another type of physical activity – go for a walk or do a Morning Mile run)

Reading for 20 minutes – THE MOST IMPORTANT!

English

Thank you for your opinions about Pandora's Box on purple mash. There were certainly some strong views! Check for my feedback. Today is your last day to edit your description. It was a tricky task but I hope, in discussion with parents, that you managed to imagine and give form to, the things that escaped into the world.

Maths

Year 5 are investigating adding and subtracting fractions today. After the white rose worksheet you will really enjoy an adding and subtracting fractions rap by a year 5 class online.

Year 6 are continuing their calculations with decimals: multiplication today.

R.E.

Lower key stage 2 will be learning how Christians believe Jesus brings them closer to God: the theme of SALVATION

Upper key stage 2 will be learning about the Hindu belief in REINCARNATION

Enjoy your learning.

.
