

Note to y3/4

A while back I planned some Medusa Maths for years 5 and 6 and made a video of the Medusa story for years 5 and 6 to link to the lesson which went onto home learning. I have just realised that you might enjoy the video too **ESPECIALLY BECAUSE YOU DON'T HAVE TO DO ANY MATHS LINKED TO IT!** So I have put it on again especially for you year threes and fours to purely enjoy the story.

From Ms. P
