

Name: _____

LO: I can do a test to find out where woodlice prefer to live.

QUESTION: Where do woodlice prefer to live?

PREDICTION: I think that woodlice will like to live

METHOD

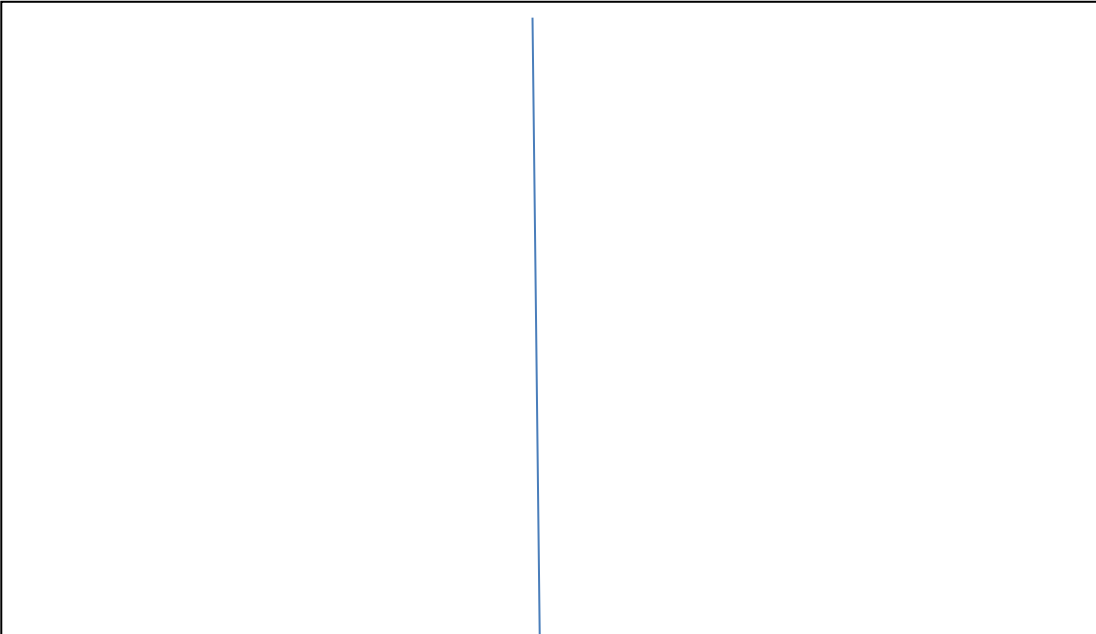

1. Choose two different types of habitat to put in each side of a tray or box lid e.g. sand and wood.
2. Carefully, put some woodlice in the middle of your tray.
3. Leave the woodlice to find where they prefer to live. (5-10 minutes)
4. Count the woodlice in each habitat.
