

Year 2 Instructions for Friday 19th June 2020.

Good Morning! We have reached the end of another busy week. Thank you all for working so hard, and have a lovely weekend.

Spelling: Fill in the missing words on the attached sheet as we finish looking at the homophone their, there and they're.

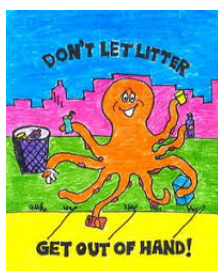

Maths: Make sure you complete any unfinished work first. Then attached are some 3D animals for you to make. See if you can work out what 3D shapes they will become.

English: PLAN Rewatch the clip from UP.

Imagine you could go anywhere in the world in your flying house. Where would you go? What adventures would you have? Think about who is going to go on the adventure with you? You are going to plan your story. You need to introduce your characters, think about how your house is going to fly and decide where you are going to go. I am looking for lots of description using adjectives and adverbs so in your plan, write as many adjectives that you could use to describe your house and your journey. Use the attached plan to start planning your ideas. Remember you are not writing the story yet you are just putting down your ideas.

Geography: We are looking at the local environment today and thinking about problems with pollution and litter. Litter has been a big problem during Lockdown with a lot of people going into the countryside and leaving their litter behind. So I would like you to design a poster reminding people to look after our local area and to take their rubbish home with them. Make it bright and colourful with pictures and a strong message. Below are some examples of posters to give you some ideas. There are lots more on the internet.

Remember to get outside and get active
Share and read books with someone at home.

Have a fantastic weekend
Mrs. Edgeworth
