Remember you are thinking of a planet you could land on and describe it using adjectives and adverbs.

If you have finished that, look at the picture below and writing in full sentences and adjectives and adverbs, describe what you can see. Think about who could live there?

Where is it? What might be inside? Lots of description to bring the house to life.

R.E. We are still thinking about the importance of the Mosque to Muslims. If you need to watch the following clip again. Whilst you are watching it, look particularly at the walls. What do you notice? How are they decorated? What is missing?

In Islam, images of special people and animals are not allowed. Therefore, mosques are often decorated with patterns and words from the Qur'an (Holy Book). Below are some examples of Islamic patterns that you may find in mosques. Try designing your own Islamic patterns. Attached to home learning page is some ideas on how to do it.

Music: Go onto www.charanga.com and try some of the activities.

Have a lovely day, remember to stay active and read and share books with someone at home.
