

Wednesday 15th July 2020

Good Morning Oaks

I hope you are enjoying the last week before we break up for the summer holidays. The Y3 and Y5 learning will continue for the rest of the week but this will be the last home-learning posted for the Y4s, as they will all be in school on Thursday and Friday. I would like to say well done for all the learning tasks that you have completed at home. You have amazed your teachers with your efforts and this will stand you in very good stead when you return to school in September. Thank you and a huge thank you to all the parents, big brothers and sisters and grandparents who have helped you.

I have included a photo of one particularly amazing piece of home-learning.

Here are your activities for today:

PE Have some fun outside.

Reading for 20 minutes – I have included this week's Picture News newspaper.

English

Ms Pickard has set a task on Purple Mash.

Maths

See the maths tasks set by Ms Pickard and Miss Bamber.

Science

Choose any animal (maybe one that you found in the river when you were pond dipping last week or another animal of your choice). Do some research using either a non-fiction book or a website suitable for children and produce a fact file. Try to include information about its habitat and diet (Y5/6 can also find out about its life cycle and position in a food chain) and add a labelled drawing.

Enjoy your learning!
