

Thursday 2nd July

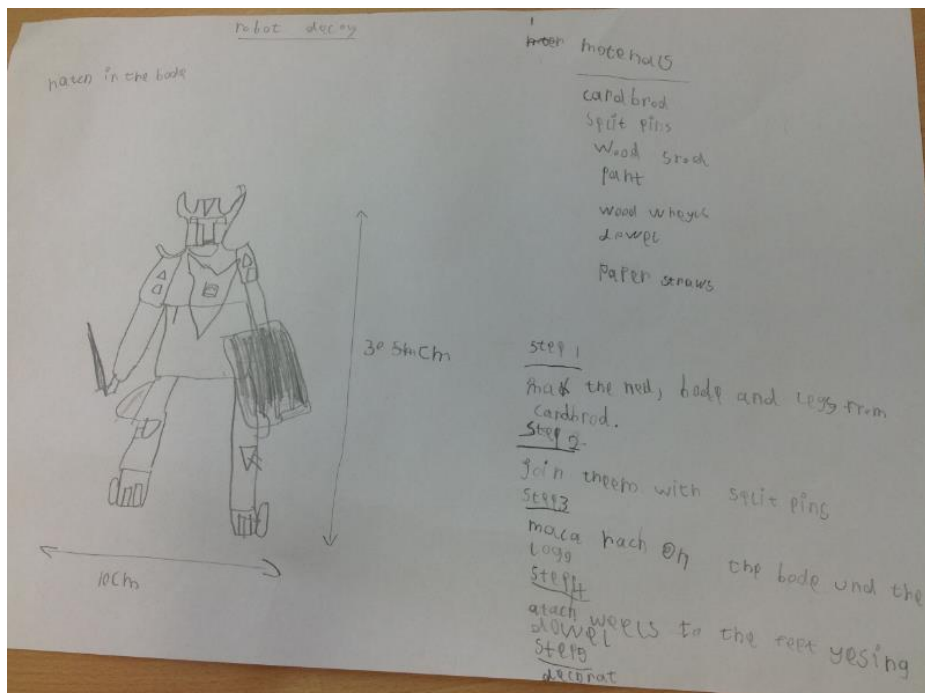

How did your research into Ancient Greek God accessories go? Did you find any that surprised you, or interest you?

Choose one of the accessories you found out about, it needs to be one you can easily re-create using materials you have at home.

Plan how you are going to make it.

Remember, when you are drawing plans, you need to include:

- Simple sketches and diagrams, which have been labelled.
- Materials you are going to use.
- A step by step method of how you are going to make it.

The image above shows someones plans for the decoy vessel. He has included materials, steps and diagram, but needed to label his diagram too.

It is up to you how you choose to lay out your plans.
