

Hello Oaks

It's the last R.E. lesson of this school year and we are investigating Why humans do bad things and how they can put it right (from a Christian perspective).

Firstly, it is only natural for humans to be led by our feelings sometimes. Feelings can surge up and take over, making us behave badly at times.

Watch what our Christian puppet-friend Douglas thinks about greed and how that can make us selfish and angry and badly behaved.

Search **Douglas talks greed**

Now give an example of greed leading to bad behaviour e.g in the video someone could push someone out of the way to get to the best bargain.

Now write how this wrong could be put right e.g the pushed person could have fallen to the floor ...the pusher could stop and help the person get up and could give the bargain to the person he/she pushed, saying, " I'm sorry. I don't need this. I shouldn't have pushed you. You have it".

You can use words or pictures (and possibly speech bubbles) to show your example.

Next, watch **Douglas talks...peer pressure**

And make a poster about peer pressure.
