

Monday 13th July 2020 **Y4 Maths**

Good morning Y3s, I hope you've had a good weekend.

Here is your maths for today.

Follow the link to <https://whiterosemaths.com/homelearning/year-4/> Summer Week 12 - Lesson 1 and watch the teaching video **'Lines of symmetry'**.

Think about the symmetry lesson on Friday last week in school and remember to use a ruler and be as accurate as you can when you draw lines of symmetry.

There is also challenge below.

Lines of symmetry

1 Tick the shapes that have at least one line of symmetry.

2 Tick the shapes that show a correct line of symmetry.

How did you know which shapes to tick?

3 Draw one line of symmetry on each shape.

a)

e)

b)

f)

c)

g)

d)

h)

Is there more than one possible answer for each?

- 4 Sort the shapes into the table.
The first one has been done for you.

	1 line of symmetry	More than 1 line of symmetry	No lines of symmetry
Triangle			
Quadrilateral		A	

- 5 Tommy is folding a paper circle to find lines of symmetry.

A circle has lots of lines of symmetry!

Do you agree with Tommy? _____
Talk about it with a partner.

- 6 Here are 3 logos.

Dora

All of these logos have lines of symmetry because they're circles.

Mo

I disagree because the design on them isn't symmetrical.

Who do you agree with? _____

Talk about it with a partner.

- 7 Shade a maximum of 8 squares to make a symmetrical shape.

Compare answers with a partner. How many different shapes can you make?

Challenge

Symmetry Challenge

Age 7 to 11 ★★

Systematically explore the range of symmetric designs that can be created by shading whole squares of the grid below.

You could use [this sheet of blank grids](#) to record your results, or simply squared paper.

How many can you find?

Symmetry Challenge

Answers

White Rose Maths

Lines of symmetry

1 Tick the shapes that have at least one line of symmetry.

2 Tick the shapes that show a correct line of symmetry.

How did you know which shapes to tick?

White Rose Maths

Lines of symmetry

3 Draw one line of symmetry on each shape.

e.g.

Is there more than one possible answer for each?

White Rose Maths

Lines of symmetry

4 Sort the shapes into the table.

The first one has been done for you.

	1 line of symmetry	More than 1 line of symmetry	No lines of symmetry
Triangle	C	D	E
Quadrilateral	H	G A B	F

5 Tommy is folding a paper circle to find lines of symmetry.

Do you agree with Tommy? yes

Talk about it with a partner.
