

Osmotherley Primary School

Pupil premium strategy statement 2023-24

This statement details our school's use of pupil premium and recovery premium for the 2022 to 2023 academic year to help improve the attainment of our disadvantaged pupils. It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Osmotherley Primary School
Number of pupils in school	41
Proportion (%) of pupil premium eligible pupils	SUPP
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2023-26
Date this statement was published	31.12.23
Date on which it will be reviewed	4.9.24
Statement authorised by	Jane Bamber
Pupil premium lead	Jane Bamber
Governor lead	Sam Hutchinson

Funding overview

Pupil premium funding allocation this academic year	£4365
Recovery premium funding allocation this academic year	£2135
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£6500

A: Pupil premium strategy plan

Statement of intent

At Osmotherley Primary School, we understand that not all children who are eligible for free school meals are socially disadvantaged and also that not all pupils who are socially disadvantaged will be registered for free school meals, looked after or from service families.

We also understand that the purpose of the funding is to narrow the gap between eligible and non-eligible children, so the impact of the expenditure must reflect a narrowing gap between those groups of children, in terms of achievement.

We use the Pupil Premium funding to help all of the children at Osmotherley Primary School to succeed and to provide additional help and support to the children and families who need it.

For the previous financial year (2022/23) and current financial year (2023/24), Osmotherley Primary School is not required to publish a Pupil Premium Strategy on our website. This is to ensure that no single pupil can be identified in our data. The Department for Education (DfE) have issued the following guidance:

"The Department for Education's policy is to suppress publication figures relating to a cohort of 5 pupils or fewer. This is intended to reduce the risk of individual pupils being identified from published data".

(This is a direct quote from the DfE's policy for publication of small numbers.)

Pupils who qualify for Pupil Premium and other pupils, who need additional support, are identified and their areas of need recorded. Some pupils receive additional support (one to one or in a small group) and termly assessments and recalls are used to monitor the impact of the support given.

We continue to identify the needs of individual pupils throughout the year and adapt our plans accordingly. Our Pupil Premium Strategy is monitored by our Governing Body.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

1.	Our assessments and observations indicate that the education and wellbeing of some of our disadvantaged pupils was impacted by school and pre-school closures during the Covid 19 pandemic to a greater extent than for other pupils. These findings are supported by national studies. This has resulted in some pupils having significant knowledge gaps leading to pupils falling further behind age-related expectations, especially in writing (spelling in particular) and maths.
2	Pupils with identified needs had restricted access to resources and support from specialists during the pandemic, particularly those pupils with speech and language difficulties.

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success Criteria
Every child becomes a fluent reader.	KS1 reading outcomes in 2024, 2025 and 2026 will show that all pupils can read with fluency and automaticity and are well prepared to access the KS2 curriculum KS2 reading outcomes in 2024, 2025 and 2026 will show that disadvantaged pupils achieve at least expected standards in statutory assessments and will be well prepared for the KS3 curriculum.
Improved maths attainment for disadvantaged pupils at the end of KS2.	KS2 maths outcomes in 2024/25 will show that 100% of pupils, including disadvantaged pupils meet the expected standard and are well prepared for the KS3 curriculum.
Improved writing (including spelling) attainment among disadvantaged pupils.	In 2024/25, writing assessments will show that 100% of pupils including disadvantaged pupils meet the expected standard and are well prepared for the KS3 curriculum.
All children, including the most disadvantaged, are equipped with the knowledge, skills and opportunities to make a positive contribution to the school and wider community	Disadvantaged pupils have access to a wide range of extra-curricular activities and enrichment opportunities to explore and grow their interests and talents.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £3,260

Activity	Evidence that supports this approach
Purchase of additional Little Wandle Letters and Sounds Revised Fluency reading books and resources to support KS2 and EAL learners who still require support with phonics -	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading particularly for disadvantaged pupils: Phonics Education Endowment Foundation

<p>to support phonics teaching and secure phonics knowledge for all pupils + training hours for TAs £400</p>	
<p>Renewed subscription to Scode spelling scheme (Y3-Y6) and resources (teacher books, pupil workbooks, online resources) £300</p> <p>Renewed subscription to Reading Plus (online resources for practising reading for meaning (comprehension) for Y5 and Y6 pupils) £360</p>	<p>Scode follows on from the school's chosen phonics SSPP – following the scheme ensures clear progression and systematic learning of spelling</p> <p>Reading Plus provides pupils with a wide range of texts which are matched to a pupil's ability and increase in challenge as the pupil's reading improves. Reading Plus increases fluency (words per minute) which leads to increased engagement and enjoyment of reading. Enjoyment of reading is linked to an increase in academic success.</p> <p>Evidence from OECD (2002) found that reading enjoyment is more important for children's educational success than their family's socio-economic status. Clark and Rumbold (2006) argue that reading for pleasure could be one important way to help combat social exclusion and raise educational standards.</p>
<p>Enhancement of our maths teaching and curriculum planning in line with White Rose Maths and EEF guidance. We will fund release time for the maths subject leader and the Y3/4 teacher to complete Maths Hub training in mastery in maths. (6 days x 2 teachers) £1500</p> <p>Subscription to Doodle Maths programme offering online deliberate practice at school and at home to build fluency £400</p>	<p>EYFS/Y1 teachers will introduce 'Mastery in Number'. In Y2 and KS2, the small steps of progression within the White Rose Maths curriculum plans will be enhanced by open ended activities so that pupils can apply their knowledge when they have developed sufficient fluency.</p> <p>The EEF guidance is based on a range of the best available evidence: Improving Mathematics in Key Stages 2 and 3 Pupil_Premium_Guidance_iPDF.pdf (educationendowmentfoundation.org.uk)</p>
<p>Access to educational visits and wider curriculum opportunities, e.g. Music for Life, live theatre (The Boy at the Back of the Class – Newcastle Theatre Royal), Y5/6 Liverpool residential visit, Forest School.</p>	<p>EEF - Provision of a range of initiatives to extend children's experiences see https://www.gov.uk/government/publications/the-pupil-premium-how-schools-are-spending-the-funding-successfully</p>

£300	
------	--

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £3,140

Activity	Evidence that supports this approach
Well trained teaching assistant (additional 6 hours per week) to provide regular short 1:1 reading sessions to meet the needs of disadvantaged pupils and other pupils who are not practising reading with an adult at home. £2664	https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/teaching-assistants
1:1 maths tutoring using school-based tutors (teachers) £476	https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit

Wider strategies (for example, related to attendance, behaviour, well-being)

Budgeted cost: £100

Activity	Evidence that supports this approach
Morning Mile 8.20am x 3 times week to promote improved health, better academic performance and fewer absences	https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit

Total budgeted cost: £6500

Part B: Review of outcomes in the previous academic year (2022-23)

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Data for pupils in receipt of pupil premium funding has been suppressed due to the small numbers.

- The purchase of Little Wandle Rapid Catch-up resources and whole staff refresher training has resulted in high quality, consistent phonics teaching which has ensured that pupils keep up with their peers.
- School is aware that some pupils are not supported with their reading at home. We provide daily one to one reading with a teacher or teaching assistant for all identified pupils. 88% of children achieved their expected end points in reading at the end of KS1 and 83% achieved expected in the KS2 SATS
- Identified pupils received tutoring in reading and maths after school.
- Some pupils attended breakfast club and after-school clubs, therefore, accessing the wider opportunities the school provides (morning mile, multi-sports clubs, lego club)
- Attendance in the academic year 2022-23 for all pupils, including vulnerable and disadvantaged pupils was high (97.4% which is much higher than the national average)
- Disadvantaged pupils were able to attend a residential educational visit to Robinwood, including the opportunity to travel on a train and take part in active, adventurous and team-building activities and to experience staying away from home.
